Dear Dr. Kalyani Dhusia,

You have helped MDPI review manuscript "Generative AI in Medicine and Healthcare: Moving Beyond the 'Peak of Inflated Expectations'". We appreciate your support. Currently, MDPI is running a new journal "Journal of Superintelligence"(ISSN: **3043-0097**). **We kindly invite you to submit a related work to this new journal before 30 June 2026.** It can be a review, regular research paper (article) or data descriptors.

As a newly launched academic journal, *Journal of Superintelligence* is dedicated to becoming a premier international platform for cutting-edge research in general artificial intelligence and superintelligence. As one of the invited authors, we deeply appreciate your distinguished expertise and significant contributions in the field, and we sincerely hope you will accept this invitation. **Not only will we cover all fees for you, but as the first-generation author, you will also have the opportunity to join the editorial board of the journal or hold other positions.**

If you are interested in this proposal, please contact this email directly. For further reading and submission, please follow the link to the journal website at: <https://www.mdpi.com/journal/superintelligence>

We look forward to hearing from you.

Journal Introduction:

Journal of Superintelligence is an international, open access journal on the complete ecosystem of artificial general intelligence (AGI) and superintelligence. Editor-in-Chief: Prof. Dr. Zhikui Chen(Dalian University of Technology). Editorial Board Members: <https://www.mdpi.com/journal/superintelligence/editors>

The journal prioritizes the following three interconnected pillars:

- Pathways and Theoretical Foundations of Superintelligence
- Enabling Technologies and Ecosystem Construction
- Impact Assessment, Ethics, and Governance Frameworks

Kind regards,
Journal of Superintelligence Editorial Office
